### Ejemplos de composiciones

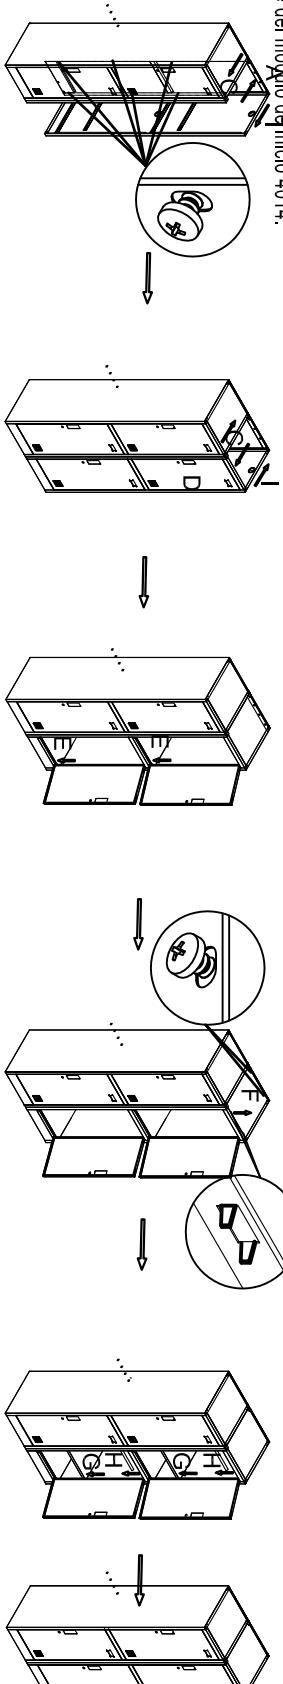

Conjunto de 2 taquillas

Conjunto de 3 taquillas

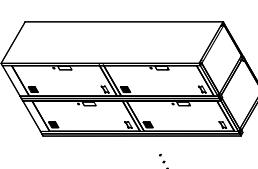

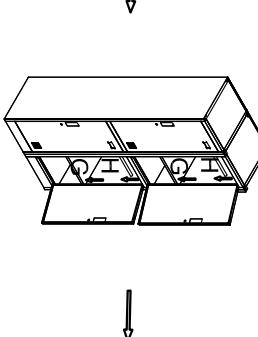

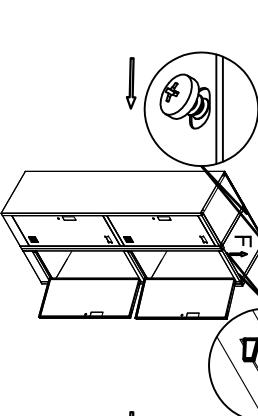

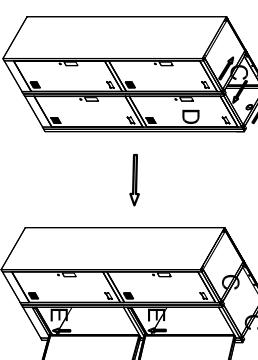

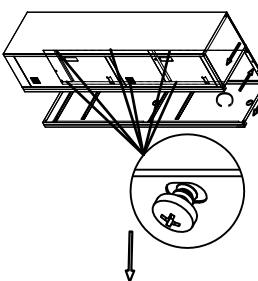

Conjunto de 5 taquillas

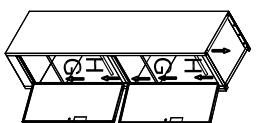

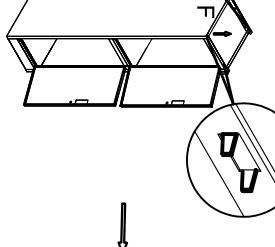

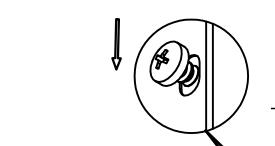

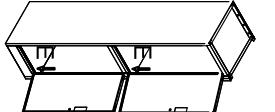

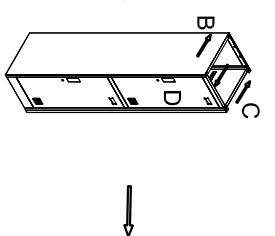

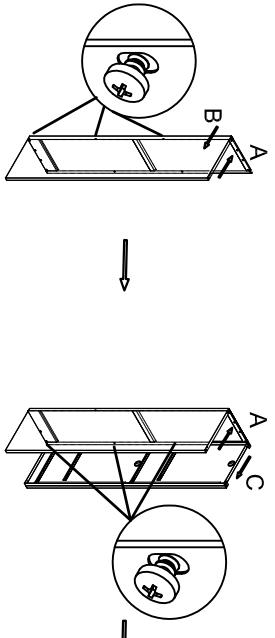

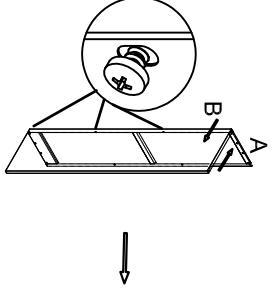

### Ensamblaje de la parte media

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

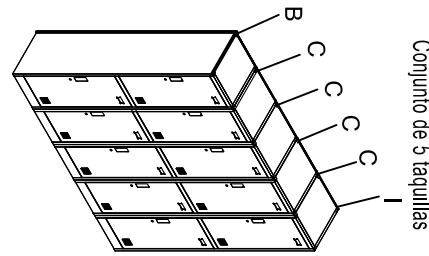

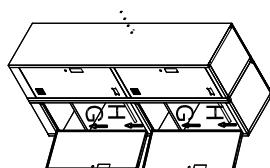

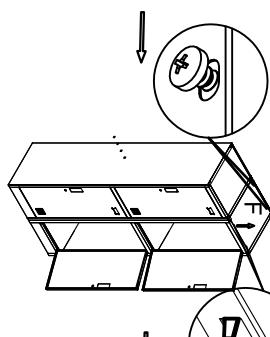

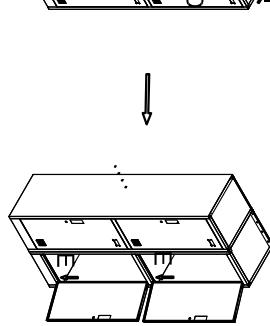

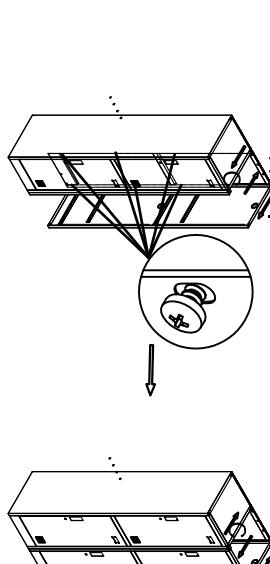

Ensamblar el panel de unión C, con marco D con el panel izquierdo B y el panel de unión C.

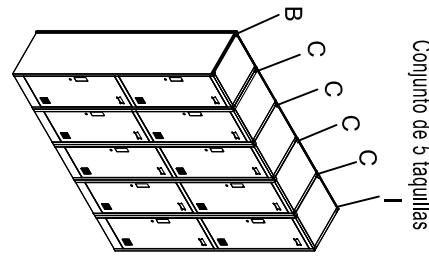

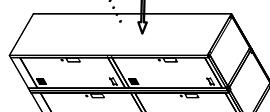

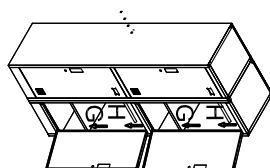

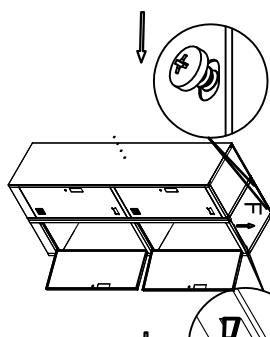

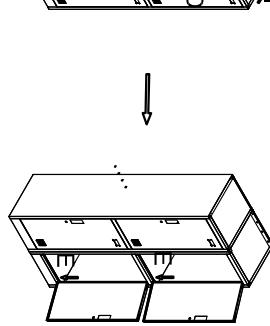

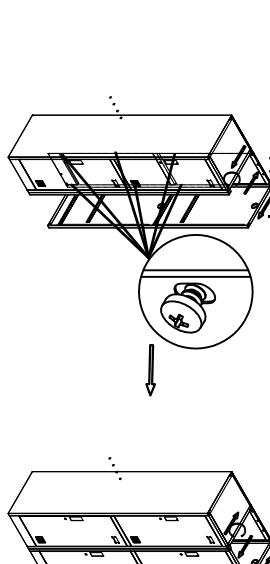

Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de unión C, fijarlos a la taquilla adyacente mediante los tornillos, ensamblar y fijar con los tornillos el panel trasero A con el panel derecho I, que proviene del módulo de inicio 4014.

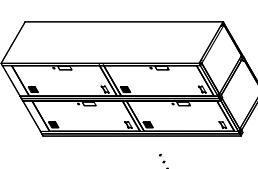

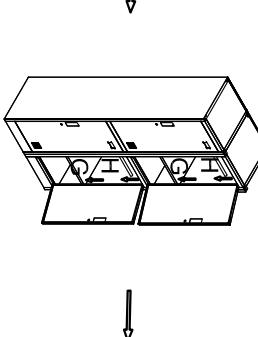

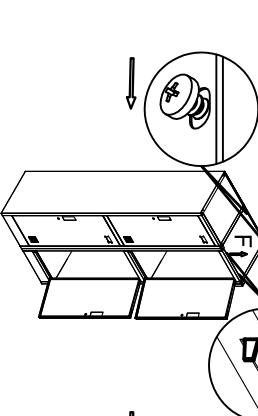

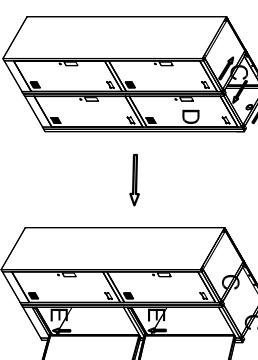

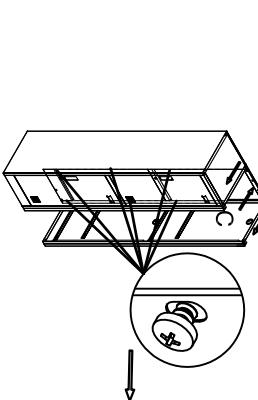

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de unión C, fijarlos a la taquilla adyacente mediante los tornillos, ensamblar y fijar con los tornillos el panel trasero A con el panel derecho I, que proviene del módulo de inicio 4014.

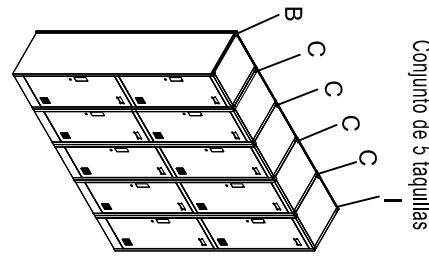

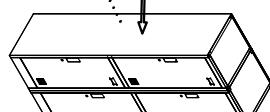

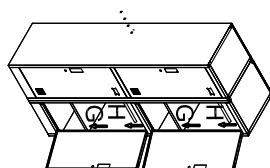

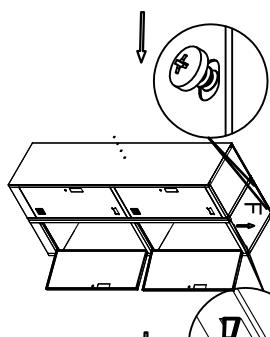

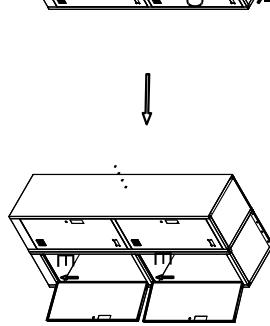

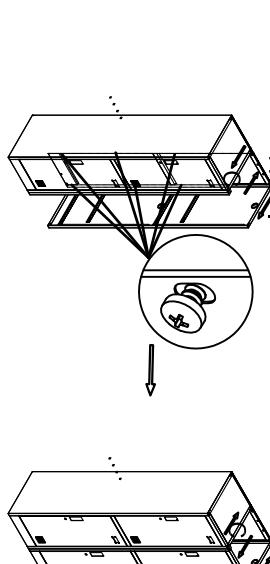

### Ensamblaje de la parte media

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

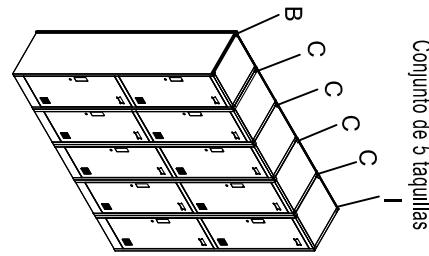

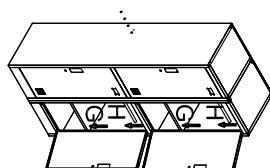

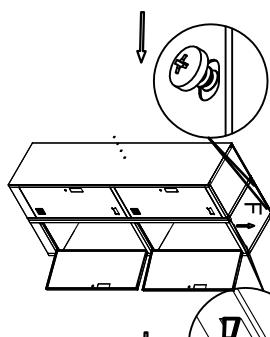

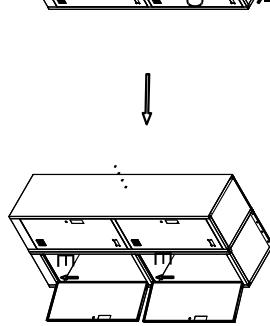

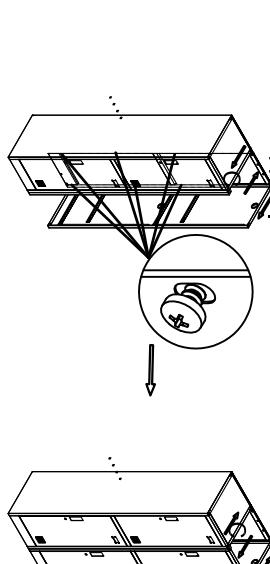

Ensamblaje de la parte media ( para conjuntos de 3 o más taquillas)

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

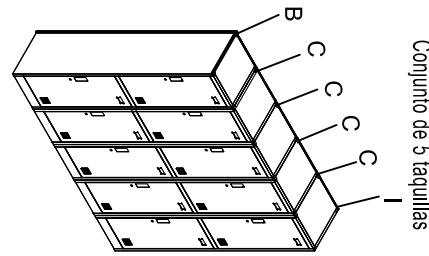

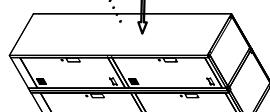

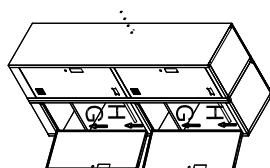

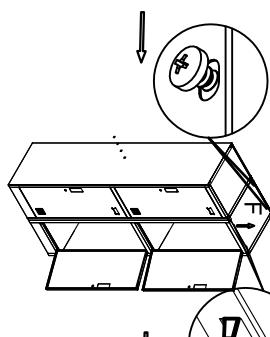

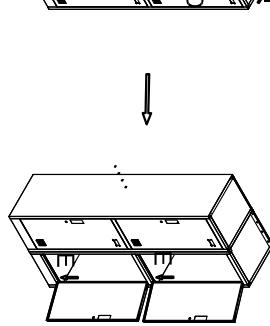

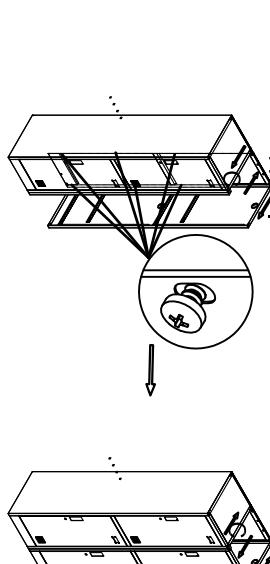

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

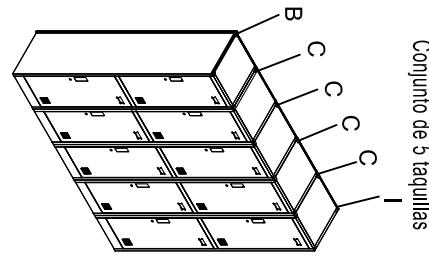

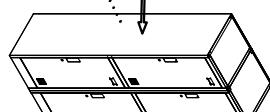

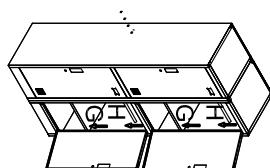

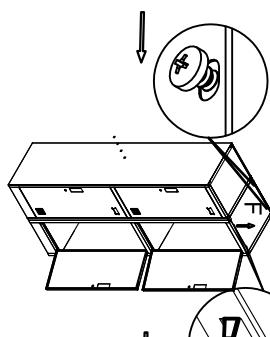

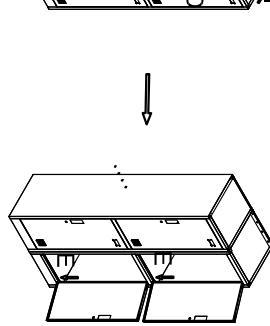

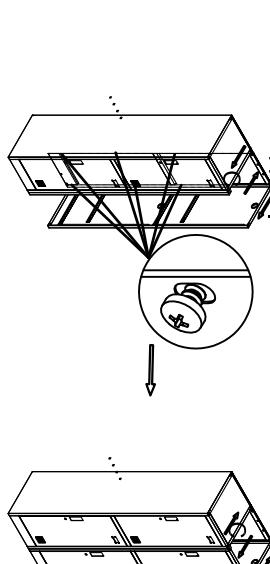

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

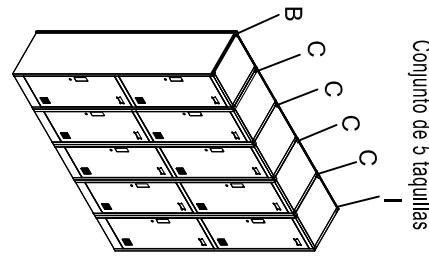

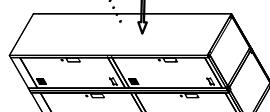

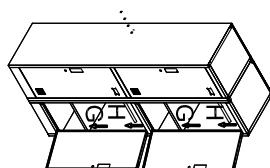

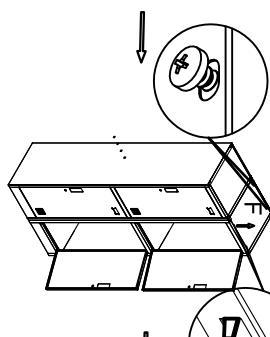

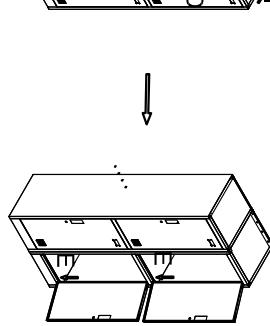

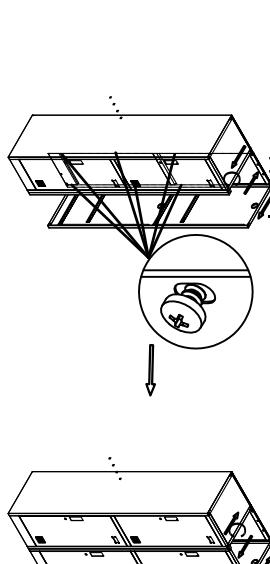

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

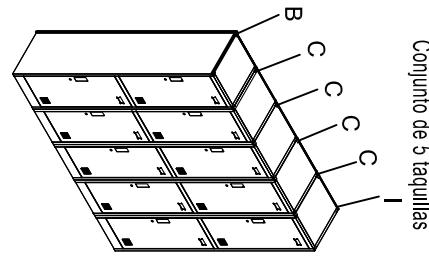

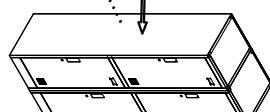

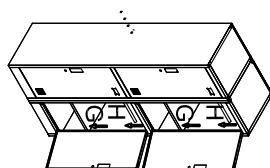

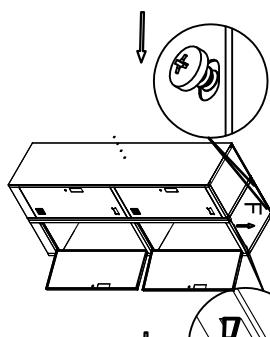

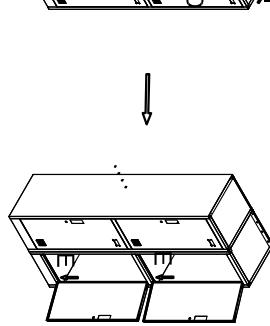

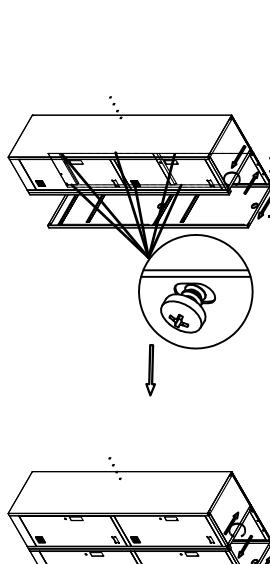

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

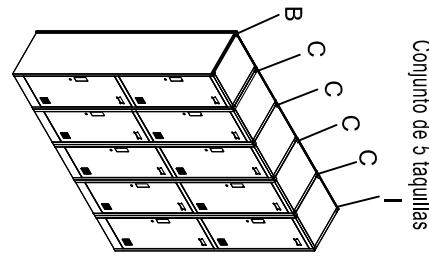

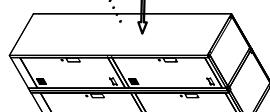

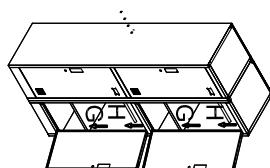

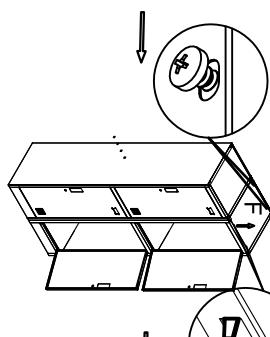

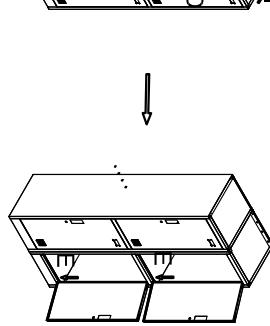

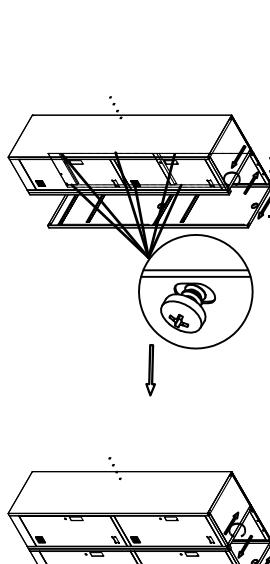

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

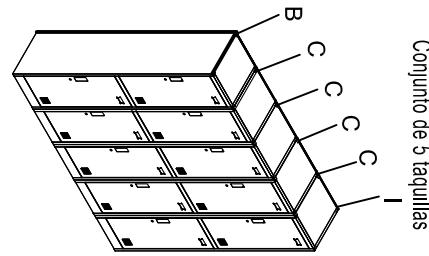

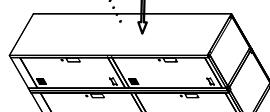

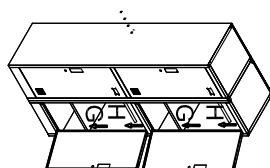

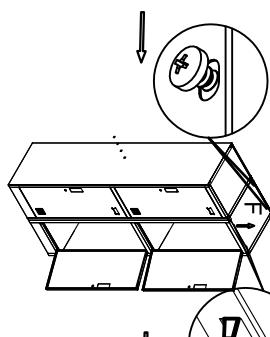

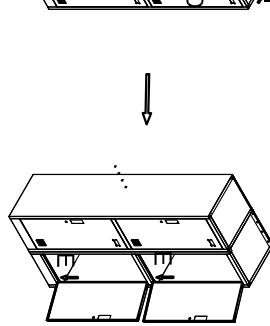

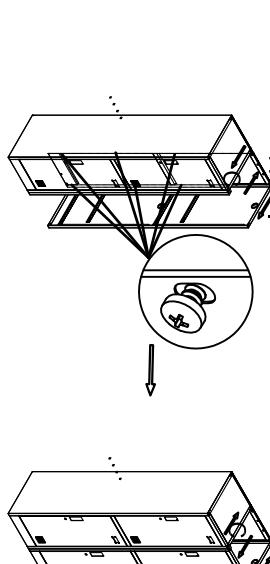

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

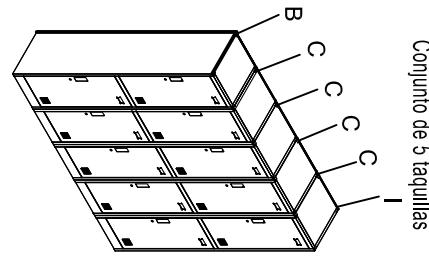

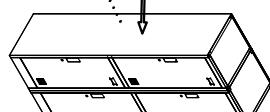

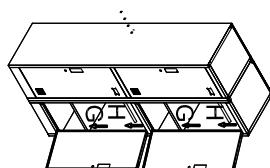

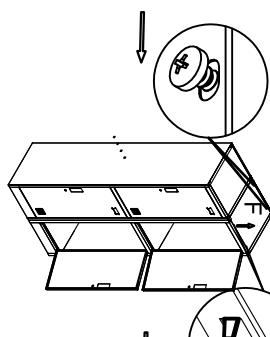

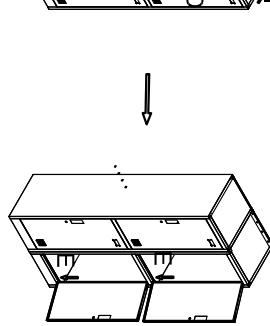

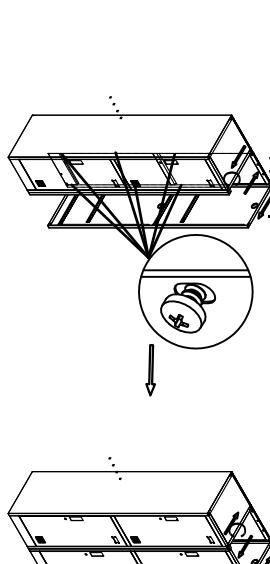

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

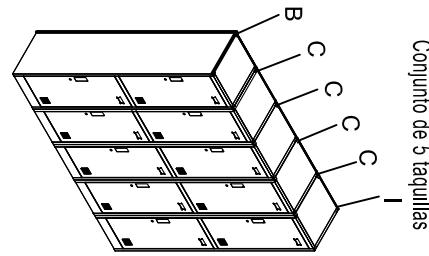

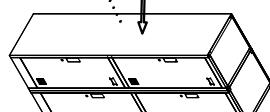

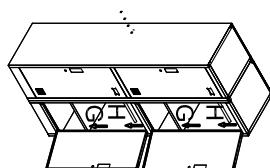

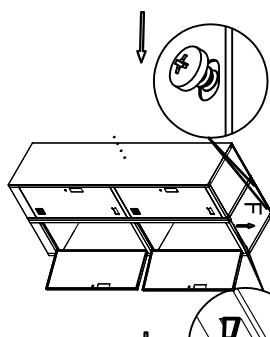

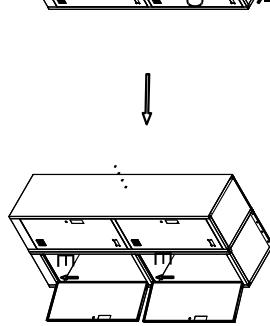

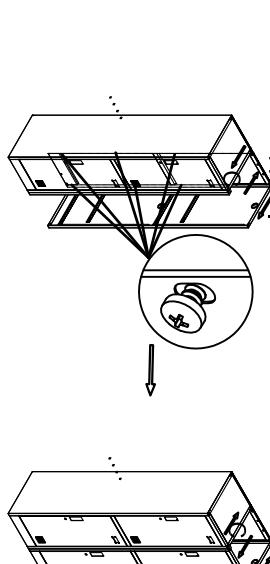

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

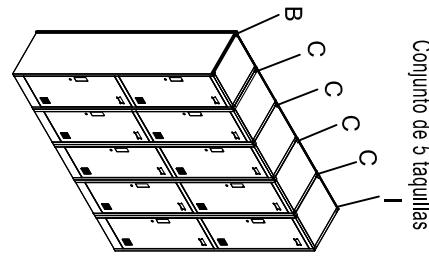

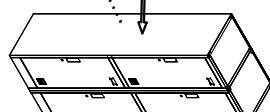

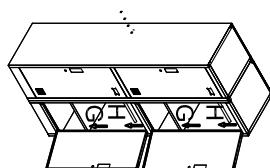

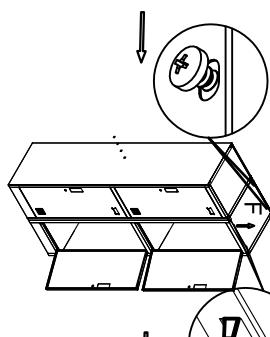

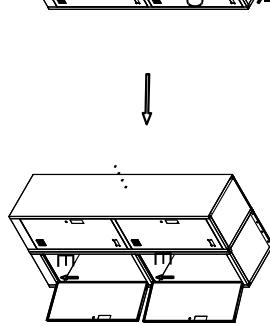

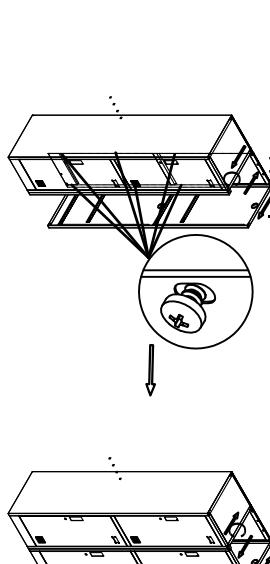

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

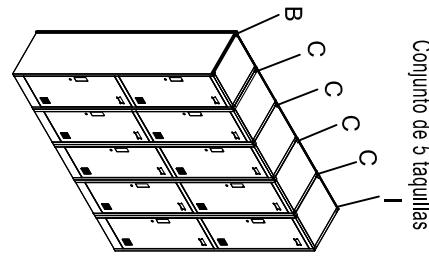

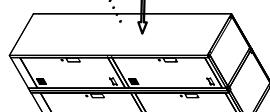

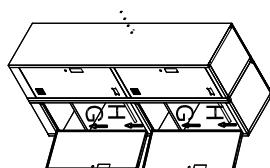

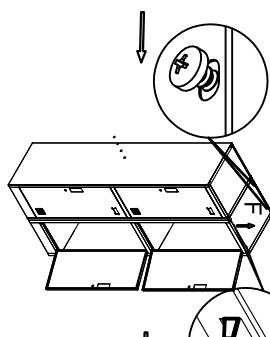

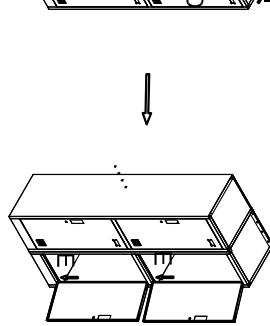

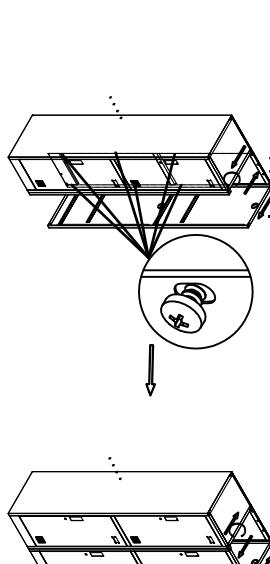

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

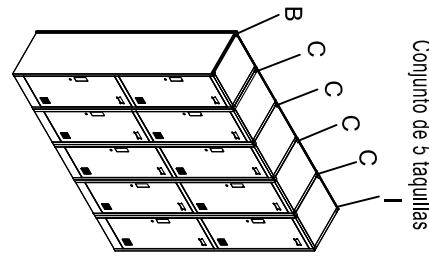

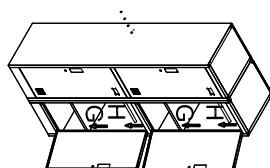

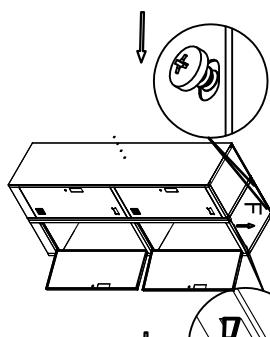

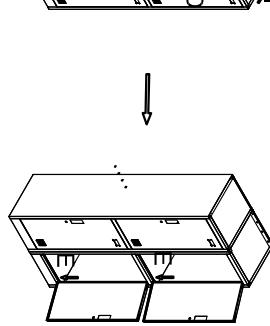

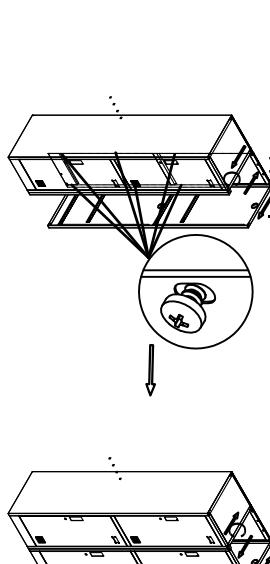

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

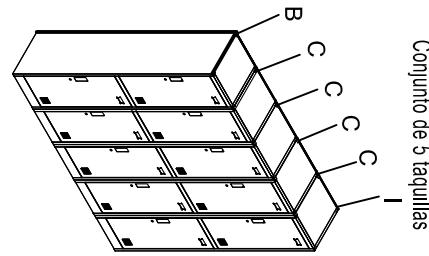

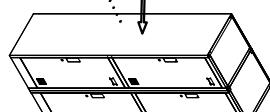

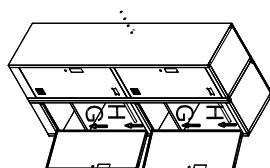

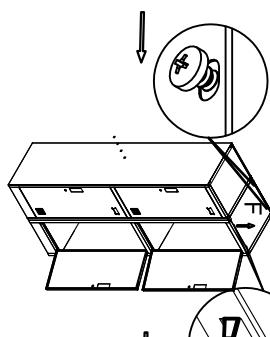

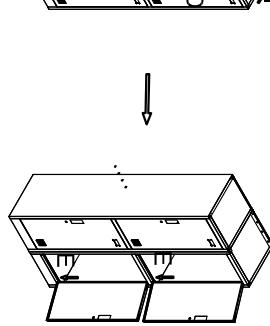

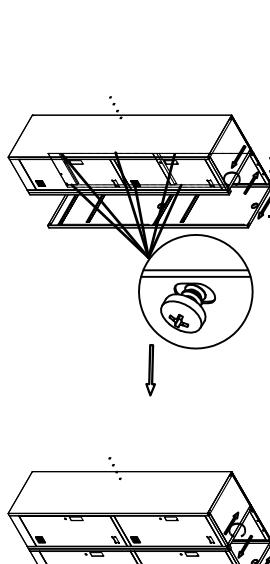

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

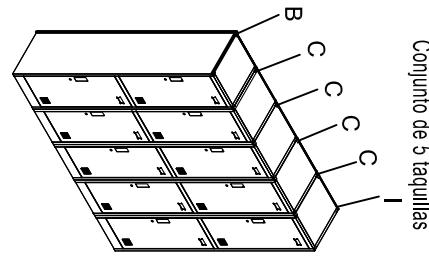

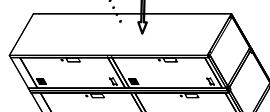

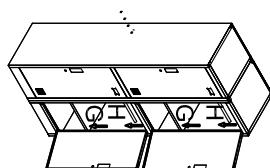

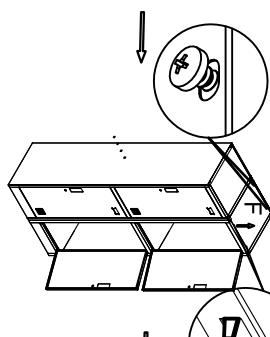

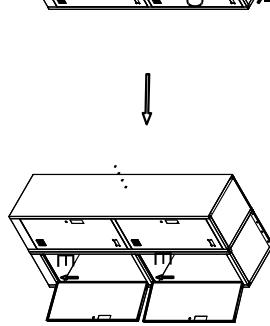

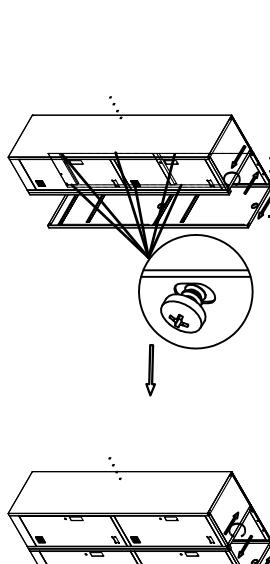

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.

### Ensamblaje de la parte final

Ensamblar el panel trasero A con el panel de puerta con marco D, con los dos paneles de unión C.
